```
Tom: G
  (intro) G D Am C
I don't know what to say
I don't know what to say
Anymore cus its all been said before
And I don't know where you are
All I know is your far
And your not coming back
If this is how it goes
       D Am
I tried but I dont know
I don't know if I like it
      Am
Without you, without you, without you, ooo
Tell me how im supposed to make it
Without you, without you, without you
        Em
You got me crying tonight
Is this what its gonna be like
I try and act like im fine but I will never be right
                                         D (continued)
```

```
Without youuuu, without youuuu, without youuuu
Without you I don't know.
Im not sure how to feel
Im not sure what I feel
Anymore cus I never felt that big
Sometimes it hurts me so bad
Its the words gotta say
And I cant live like that
I don't wanna be alone
       D Am
I tried but I don't know
I don't know if I like it
Without you, without you, without you, ooo
Tell me how im supposed to make it
Without you, without you, without you
            Em
You got me crying tonight
Is this what its gonna be like
I try and act like im fine but I will never be right
Without youuuu, without youuuu, without youuuu
