(Verse):
I met a girl and it was easy to see
That she was fallin' hard for me
That girl, she wanted me to know
By the time the night was ready to end
She grabbed a hold of both my hands
That girl, she wouldn't let me go
Pre-Chorus
                                                                Do do do
And now I'm singin'
                                                                Am (Em )
                                                                Ba ba ba
(Chorus):

I said goodnight, we traded numbers and stares
But she said "You're not goin' anywhere!"
