Capostraste na 3ª casa
            [Refrão]
                                                                I seen you with your other dude
                                Am
                                                                He seemed like he was pretty cool
You probably think that you are better now, better now
                                                                I was so broken over you
You only say that 'cause I'm not around, not around
                                                                Life it goes on, what can you do?
You know I never meant to let you down, let you down
                                                                I just wonder what it's gonna take
Woulda gave you anything, woulda gave you everything
                                                                Another foreign or a bigger chain
You know I say that I am better now, better now
                                                                Because no matter how my life has changed
I only say that 'cause you're not around, not around
                                                                I keep on looking back on better days
You know I never meant to let you down, let you down
                                                                [Refrão]
Woulda gave you anything, woulda gave you everything
                                                                You probably think that you are better now, better now
[Primeira Parte]
                                                                You only say that 'cause I'm not around, not around
I did not believe that it would end, no
                                                                You know I never meant to let you down, let you down
Everything came second to the Benzo
                                                                Woulda gave you anything, woulda gave you everything
You're not even speakin' to my friends, no
                                                                You know I say that I am better now, better now
You knew all my uncles and my aunts though
                                                                I only say that 'cause you're not around, not around
Twenty candles, blow 'em out and open your eyes
                                                                You know I never meant to let you down, let you down
We were lookin' forward to the rest of our lives
                                                                Woulda gave you anything, woulda gave you everything
                                                                0h-oh
Used to keep my picture posted by your bedside
                                                                [Ponte]
Now it's in your dresser with the socks you don't like
And I'm rollin', rollin', rollin', rollin'
                                                                I promise
With my brothers like it's Jonas, Jonas
                                                                I swear to you, I'll be okay
Drinkin' Henny and I'm tryna forget
                                                                You're only the love of my life
                                                                [Refrão]
But I can't get this shit outta my head
[Refrão]
                                                                You probably think that you are better now, better now
