tom:

G

[Primeira Parte]

C
When you leave me, made me jump out of my room
Em
Didn't faze you, would've given you the moon
D
Even after everything that we've been through
Am
I ain't ever met nobody like you
C
Why you always tryna tell me that it's cool?
Em
Need it quiet 'cause you never tell the truth
D
Felt like ballin' was the only thing to do
Am
Trade my women for some diamonds and a coupe

[Pré-Refrão]

C
When she's comin' for my heart

It feels like Armageddon
Em
I'ma turn the tables, promise you will not forget it
D
Won't apologize, don't give a fuck if you're offended
Am C
No discussion, yeah we gotta go our separate ways
Em
Won't take me down in flames
D
I don't even wanna know your name
Am
Watch how everything is gonna change, yeah, ayy

[Refrão]

C
I'ma pull up in a Bentley with a fuckin' hundred
Em
Thousand in my pocket, yeah, yeah
D
I'ma pull in, swang my door open
Am
Stunt in and know everybody watchin', yeah, yeah
C
And help another bitch out the whip
Em
And I don't give a fuck if you don't like it, yeah, yeah
D
Just to show you that it's over
Am
It don't matter what you gotta say about it, yeah
C
I'ma put that bitch pussy in a motherfucking bodybag
Em
So you know that I'm never ever coming back
D
Kept your heart on the counter in a Prada bag
Am C
I used to never ever want to see the light of day, yeah
Em
I was an idiot
D
Begging on my knees on to the floor
Am
Now, I don't even want you anymore, anymore
C Em
It's over now
D Am
It's over now, yeah, yeah, yeah, ayy

[Segunda Parte]

C
Feels like a knife in my throat

You treat this like it's a joke
Em
I bet you've done this before

I ain't surprised, yeah
D
I wasn't tryna let go, but you'll

Know why when I'm a ghost
Am
I hope you wind up alone, dead in my eyes, yeah
C
Ain't religious, only Christian when it's Dior
Em
Only prayin' for the Amex and the gold
D
You ain't stop me now; you only was a detour
Am
Tried to drive me crazy, you and all the hoes
