

Powerwolf - We Drink Your Blood

Tom: E

Our mother God we hold the sword in holy times
 We are the war we never see the light
 The order call, we all will take more human wine
 And we toast to the night
 We fold our hands, we keep the Bible in our minds
 Our father God we are the hordes of Cain
 And though you run we will take you and we find
 Any type, any vein

We drink your blood when the midnight sky is red
 We drink your blood And we call the sanguine saints
 We drink your blood when the midnight sky is red
 We drink your blood And we open your veins

Our father God, we are the demons of the wild
 When all we pray, stand the fight as one
 We tame to storm, we are the martyrs in the light
 Take your soul when you run
 We are the dark we are the saints of blood at night

We hear the call, when then moon shines red
 We grab your body in the morning all we are
 Satisfied when you are dead

We drink your blood when the midnight sky is red
 We drink your blood and we call the sanguine saints
 We drink your blood when the midnight sky is red
 We drink your blood And we open your veins

(E Ebm Abm)

We drink, we drink, we drink your blood
 Kyrie Eleison
 We drink, we drink, we drink your blood
 Kyrie Eleison

We drink your blood when the midnight sky is red
 We drink your blood and we call the sanguine saints
 We drink your blood when the midnight sky is red
 We drink your blood And we open your veins
 We drink your blood
