

Prince - Wonderful Ass

Tom: **E** KB riff 1a) (intro) b)

Tabbed by: FunknFresh

It would be a pain to tab the entire song detail by detail and note by note so I've just the main parts of the song for now. It's all by ear so don't expect perfection. To my no one has attempted this tab so it's fresh at least.

All parts transcribed for guitar.

Tabbed using recording from "Electric Intercourse" bootleg (important for "right channel" distinction)
Tuning: Standard

Riff reference

KB riff 1a) ? starts at 0.03

KB riff 3 (This is the "U've got a wonderful ass" part)

KB riff 4

Funk guitar riff 1 (left channel)

Funk guitar riff 2 (right channel) ? same pattern as riff 1

Main Bass line

NOTE: This is not the whole song. There are parts I have not learned yet but these are main parts of the song.

The part where he sings "You've got a wonderful ass" has those chord changes that I hope made clear above. However, I have not figured out the guitar riffs for this part so are missing. But the bass part on that section is "Bass b)?".
