                                                                Can you take it all away, can you take it all away
[Primeira Parte]
                                                               Well you shoved it in my face, this pain you gave to me
                                                                [Breakdown]
Everything?s so blurry and everyone?s so fake
And everybody is empty and everything is so messed up
                                                               Nobody told me what you thought
Preoccupied without you I cannot live at all
                                                               Nobody told me what to say
My whole world surrounds you, I stumble then I crawl
                                                                Everyone showed you where to turn
                C
                                                                Told you when to run away
You could be my someone you could be my scene
                                                               Nobody told you where to hide
You know that I will protect you from all of the obscene
                                                               Nobody told you what to say
I wonder what your doing, I imagine where you are
                                                                Everyone showed you where to turn
There?s oceans in between us but that?s not very far
                                                                Told you when to run away

Can you take it all away, can you take it all away
                                                                Can you take it all away, can you take it all away
Well you shoved it in my face, this pain you gave to me
                                                                Well you shoved it in my face, this pain you gave to me
Can you take it all away, can you take it all away
                                                                Can you take it all away, can you take it all away
Well you shoved it in my face
                                                               Well you shoved it in my face, this pain you gave to me
[Segunda Parte]
                                                               No? This pain you gave to me
Everyone is changing, there?s no one left that?s real
                                                                ( C D Em )
To make up your own ending and let me know just how you feel
                                                                [Final]
Coz? I was lost without you, I cannot live at all
                                                                Take it all, take it all away
My whole world surrounds you, I stumble then I crawl
                                                                This pain you gave to me
You could be my someone you could be my scene
                                                                Please take it all away
                      Fm
You know that I will save you from all of the obscene
                                                                This pain you gave to me
I wonder what your doing, wonder where you are
                                                                Take it all away
There?s oceans in between us but that?s not very far
                                                               This pain you gave to me
