

Pussycat - Smile

```
tom:
                                                                 If I could fly I fly away
Intro: G B Em G C D G D
                                                                 To a bright blue summer-day
[Primeira Parte]
                                                                 Trying to share my love with you for evermore
There were days I couldn't weep
                                                                 [Quarta Parte]
Nights I couldn't sleep
C D G
And everything I did just turned out wrong
                                                                 But darling you made my life complete

Em G
                                                                 You're everything I need C D
[Segunda Parte]
                                                                 I'll never be the same as I was before
Till there was you to dry my tears

Em G
                                                                 [Refrão]
Whisper love words in my ears
                                                                 Now there's a smile, to cheer me up when I'm lonely {\sf G}
And this is why I'm glad you came along
[Refrão]
                                                                 That I can call whenever I'm feeling down
                                                                 Smile and you know that I'm only
Now there's a smile, to cheer me up when I'm lonely
                                                                 Longing for the minute you'll be around
That I can call whenever I'm feeling down
                                                                 Help me 'cause I'm trying to get over
Smile, and you know that I'm only
                                                                 The way I thought of love many times before
Longing for the minute you'll be around
                                                                 If ever you_should go away
Help me 'cause I'm trying to get over
                                                                 And nobody else would be near
The way I thought of love many times before
                                                                 There's always a smile to remember that you were here
If ever you should go away
                                                                 [Final]
And nobody else could be near
                                                                                            D
There's always a smile to remember that you were here
                                                                 There's always a smile to remember that you were here
[Interlúdio] G B Em G C D G D
                                                                 There's always a smile to remember that you were here
