

# Queens Of The Stone Age - Villains Of Circumstance

Tom: D

Intro: Bm D A Gb

Bm D A Gb

I miss you now, what's come over me?

We're hostages of geography

The wait is long and heavy too

Despite what you're accustomed to

I know life moves on, that's what scares me so

I have no intentions of letting go

Only us,-- no one in the world

Only us,-- no one in the world

Mmm-mmm

Bm D A Gb

Mmm-mmm

I better do something, move earth and sky

And patiently, sweetly, with all of my mind

I sing only for you, to the beat of my footsteps in the night

Close your eyes and dream me home

Forever mine, I'll be forever yours

Always, evermore and on and on

Always, evermore and on and on

Always, evermore and on and on

Always, evermore

There's no magic bullet, no cure for pain

What's done is done 'til you do it again

Life in pursuit of a nameless prey

I've been so close, I'm so far away

It's so hard to explain, so easy to feel

I need you now, nothing is real

Save me from the villains of circumstance

Before I lose my place

Close your eyes and dream me home

Forever mine, I'll be forever yours

I'll be forever yours

I'll be forever yours

Always, evermore and on and on

Always, evermore and on and on

Always, evermore and on and on

Always, evermore

Ahh ahh-ahh

Ahh ah-ahh

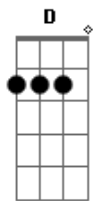

Ahh ah-ah-ah

Ahh ah-ah-ah

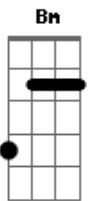

Ahh ooh-ooh-ooh-ooh
