

# Queens Of The Stone Age - You Would Know

Standard Tuning

Riff 1 (Verse)

```
G|-----|
D|-----|
A|-----|
E|--6-6-7-----6-6-7-b7--|
```

Riff 2 (Chorus)

```
G|-----|
D|-----|
A|-----|
E|--7777999\44444444--|
```

Riff 3 (Bridge)

```
G|-----|
D|-----|
A|-----|
```

E|--4444/9999\7777\6666-|

[b]= bend down  
[/]= slide up  
[\]= slide down

On the bend in the verse it sounds better to bend down plus if you bend the **E** string up much you go off the fretboard.

I put the slides in there cause it makes the song sound smoother.

The song is mainly the first two riffs with close to 20 seconds of riff 3 at the end.  
can definitely pick out where each riff goes.

Easy song (so if you want to throw in a few buffer notes and fills)  
Make it sound like you want

## Acordes
