All alone now
Except for the memories
           Е
Gbm7
Of what we had and what we knew
Every time I try to leave it behind me
                          Gbm7 E
I see something that reminds me of you
Every night the dreams return to haunt me
             Е
Your rosary wrapped around your throat
                F
I lie awake and sweat, afraid to fall asleep
            Е
I see your face looking back at me C G Em C D
Looking Back At Me
[Refrão]
And I raise my head and stare
 Em D Em D
Into the eyes of a stranger
                        Em
I've always known that the mirror never lies
People always turn away
           D Em D
From the eyes of a stranger
Afraid to know what
        Em C
Lies behind the stare
Is this all that's left
Of my life before me
                 D
Straight jacket memories, sedative highs
```

```
No happy ending like they've always promised
There's got to be something left for me
[refrão 2]
And I raise my head and stare
  Em D Em D
Into the eyes of a stranger
I've always known that the mirror never lies
People always turn away
          D Em D
From the eyes of a stranger
Afraid to know what
       Em
Lies behind the stare
[Solo] Em D Em D
      Em D Em C G A
      Em C D Em D Em C G A
How many times must I live this tragedy
How many more lies will they tell me
              G
All I want is the same as everyone
Why am I here and for how long?
And I raise my head and stare
       Em
              D Em D
Into the eyes of a stranger
I've always known that the mirror never lies
People always turn away
       Em
From the eyes of a stranger
Afraid to know what
               Em C G Em C D
Lies behind the stare
```
