

# Radio Front - Heart Burn

Tom: C

Don't know how  
It happened, so fast  
Hold me now  
I feel I'll crumble to you  
Spread your arms  
All around me  
And it makes me strong  
Make my world turn  
Light my heart and burn  
Fill me with your love  
Make my world turn  
Light my heart and burn  
Fill me with your love tonight

If you came to fix me  
To you, well I'm just crazy  
I just believe because I feel it  
You've brought me a thousand smiles  
Just dance with me  
Just dance with me  
Just dance with me now  
Because you  
Make my world turn  
You light my heart and burn  
When fill me with your love  
Make my world turn  
Light and burn  
Fill me with your love  
Tonight
