

# Radio Front - Wake Me With Your Call

Tom: G

Intro: G D Em C D

Falling into delusion

To find yourself in this confusion

No, I don't understand

My head spins my heart pumps

And I don't know if this is real

Baby I'm driving all alone

But you can drive with me

If you want to

Just wake me with your call

Tell me you're fool

And you don't want to loose me"

I'm sitting in my own bed waiting for some bird to tell me

To tell me you will come back

Just wake me with your call

Tell me you're fool

And "I don't want to loose you"

I'm sitting in my own bed waiting for some bird to tell me

To tell me you will , you will

Just wake me with your call

Tell me you're fool

And "I don't want to loose you"

I wrote that song about ten minutes ago

When I saw you're crying

And I just want to make you

I Just want to make you Mine
