

Radio Hotel - Everything Fades Away

tom: D [Intro] D

The sun will rise, the sun will fall
 Nothing here will last at all
 Dreams we chase just drift and sway
 Like the tide, they slip away

(Chorus)
 Everything fades away, my friend
 Every story finds its end
 Good and bad, they both will bend
 Everything fades away, my friend

People come and people go

Hearts will break, and rivers flow
 Love will burn, then turn to grey
 Even light will lose its way

(Chorus)
 Everything fades away, my friend
 Every story finds its end
 Good and bad, they both will bend
 Everything fades away, my friend
 Everything fades away, my friend
 Everything fades away

Everything fades away

Acordes
