```
Tom: G
                                                              (Guitarra 2)
Don't hurt me
Don't hurt me
                                                              (Guitarra 3)
Gather up the lust in your soul
Into your arms, into your arms
               Am
Gather up the painful
       D
Into your arms, into your arms
What seems impossible
      D
Into your arms, into your arms
I think I have had my fill
        D
Into your arms, into your arms
         D
                                                              Refrão:
Into your arms, into your arms
                                                              (Guitarra 1)
I think I should give up the ghost
                                                              (Guitarra 2)
        D
Into your arms, into your arms
         D
Into your arms, into your arms
                                                              (Guitarra 3)
Into your arms, into your arms
Into your arms, into your arms
                                                              (Verso)
                                                              (Guitarra 3)
