Rage Against The Machine - Guerila Radio

Tom: C

   Guerilla Radio

From the album Battle of Los Angeles

Just use a shitload of guitar effects for this song.

Notation legend:

/ or \= slide to note before or after slash. If there is no note (such as in the intro)
slide from or to anywhere on that string.
x= palm mute with fretting hand
PM= Palm mute with picking hand.
?= do whatever the hell you want!
~~= vibrato
( )= the pitch you must slide or bend to.
Intro:

Verse: Mostly just bass and drums. The guitar goes:

w/ talk box:

```
   PM_____|
```
Chorus: (same as intro)

Solo:

Part 1- Just have a phaser kinda effect, and slide the length of the neck. Some pick
and palm muting wouldn't hurt either.

Part 2:

Part 3:

Part 4:

Outro:

       ALL!   HELL!

                    CAN'T STOP US NOW!

This tab is for those who don't care much for technicality. Everything in this tab
sounds right to me, but I dunno if it's note perfect, so please nobody comment if you
think it's not right cos I'm like one fret out or something, cos no-one really cares.
