

# Ramones - Palisades Park

Tom: **G**

**G E**

**G**

Last night I took a walk in the dark

**E**

To a place called Palisades Park

**C**

To have some fun, to see what I could see, that's where the girls are

**D**

I took a ride on the shoopty shoop

The girl I sat with almost, almost puked

And when it stopped, she was holding hands with me

**C**

My arms were flying up, like a rocket ship

**E**

Down, like a roller coaster

**C**

Fast, like a loopy loop

**D**

Then around, like a merry-go-round

We even at a hot dog stand

Slam danced to a rockin' band

And when she winked, I gave that girl a hug, in the tunnel of love

**C**

You'll never know how good it just can feel

**E**

'Til it stops at the top of the ferris wheel

**C**

**D**

I fell in love, down at Palisades Park

[ **G E** ] x2

[ **C D F#\G** ]

Last night I took a walk in the dark...

I took a ride on the shoopty shoop...

My arms were flying up, like a rocket ship...

We even at a hot dog stand...

You'll never know how good it just can feel...
