VERSE: X 2

Then play the beginning segment without the first 4 times, and then the verse.  
 Do that several times, im not sure how many. Then play...

Heres a little thingy to play during the bass fills...

hold through bass fill    hold this too    hold this longer  
 fill is longer                                      cuz the bass

Then play...

LIKE THE SWARMING VULTURES!!!

=end abruptly

Play that twice but last bit twice but on the second time i think you play the 7-9 powerchord on the 6th and 5th dtrings more than once and theres a pick scrape on second guitar. Then play the beginning segment a few more times, then play...

Is it you...whos born...frustrateeeeeeeeddddddddddd

And then your done. End the last not abruptly also. I dont know exactly how many times to play that last note, just go crazy with it.  
 This is a very easy song and you should learn it in 1-2-3!!
