

RAYE - Nightingale Lane

tom:

[Primeira Parte]

On the street in the South London suburbs
 Where my first love kissed me goodbye
 His lips were thin (thin), and beer-stained
 (Beer-stained) And tear-stained
 Was a pain that made me colder now
 After the oceans I cried, I'm made of steel
 Just floating now, mm-mm

[Pré-Refrão]

But when I drive (when I drive)
 Down this road (down this uff)
 I reminisce, (Lose my mind)
 I drive slow, I've let him go now (I,I..)
 I just see a ghost town
 And sometimes at red lights
 With closed eyes, I tell myself
 I dare myself to go on, just say it

[Refrão]

Somebody loved me once (Loved me once)
 And someday somebody will love again
 Like the way you loved me
 (Take me back in your arms, love me right, just
 Tonight)

On
 Nightingale Lane (Nightingale Lane, Nightingale Lane)
 Although we never made it, stranger
 You showed my it's true
 I'm capable of loving someone the way I loved you

It was
 Right there,(And it was) early june (Right next to..)
 Next to Old Park Avenue (on Nightingale Lane)
 Standing in the rain, I watched him walk away
 Yeah, ba-bo-boo

[Segunda Parte]

Took me long old years to get over you

It was an aching I refuse to feel again
 And looking back now
 We never were quite right for each other, baby
 But in the absence of passion in my life
 I remember how alive love once was

[Pré-Refrão]

And I sigh when I drive (when I drive, when I drive)
 When I drive down this road, yeah (down this road)
 I reminisce (Lose my mind), i drive slow
 I've let him go now (I, I..)
 I just see a ghost town
 And sometimes at red lights
 With closed eyes, I tell myself
 In fact I dare myself to go on, just say it

[Refrão]

Somebody loved me once (Loved me once)
 Someday somebody will again
 Like the way you loved me (Loved me)
 (Take me back in your arms, love me right, just
 Tonight)
 On Nightingale Lane (Nightingale Lane, Nightingale
 Lane)
 And though we never made it, stranger
 You showed my it's true
 I'm capable of loving someone the way I loved you

It was
 Right there,(And it was) in june (Right next to)
 Next to Old Park Avenue (on Nightingale Lane)
 Standing in the rain, I watched him walk away
 Yeah, ti-di-di

[Ponte]

I've dabbled in love since
 Maybe every other summer
 It never lasts long
 They never stick around
 Im made of steel now (I'm made of steel)
 I believe someday someone gon' come along
 And knock them walls

Bbm
Down, and knock them walls down
