

# RealestK - Love Me

tom:  
Intro: Cm D7 Gm G7  
[Primeira Parte]  
Baby  
I just want to see you smile  
Just one more time before I leave  
I just want your love and company  
'Cause any time I'm on the road  
You feelin' up, you're all alone  
You tell me what you wanna hear  
I'm tryna tell you what I know  
'Cause I just wanna be the peace of your mind  
Anytime that I walk by, but baby  
[Refrão]

Baby, why can't you love me?  
Hold me so close, maybe we can be lucky  
I'm callin' your name  
I'm screamin' it out, just love me  
I know that it's hard for you to love me

[Segunda Parte]

## Acordes

Callin' your name  
I'm screamin' it out  
Tell m? if you can figure it all out  
And I don't wanna be that guy, but  
I just wanna be your guy  
I just wanna b? your man that holds  
you close and lets you light up in in your eyes  
And now I'm sweatin' up in tears 'cause  
You and I are right here, babe  
Tell me what I gotta hear 'cause  
All that you wanted  
Gave you, I'm runnin' now  
Runnin' right back to you  
[Refrão]  
And baby, why can't you love me?  
Hold me so close, maybe we can be lucky  
I'm callin' your name  
I'm screamin' it out, just love me  
I know that it's hard for you to love me
