

Tom: G

Rebecca Sugar - Time Adventure

```
F
Time is an illusion
   C Am
That helps things make sense
     G7
So we're always living
  C Am
In the present tense
F G7
It seems unforgiving
  C Am
When a good thing ends
 F G7
But you and I will always be back then
F G7 C Am
You and I will always be back then
You and I will always be back then
F G7 C Am
You and I will always be back then
You and I will always be back then
Singing will happen
C Am
Happening happened
Will happen
C D7
Happening happened
   G7
And will happen
C D7
Again and again
                 G7
                           C
                                Am
```

```
Cause you and I will always be back then
If there was some amazing force outside of time
                       Dm
To take us back to where we were
And hang each moment up like pictures on the wall
                    Dm
Inside a million tiny frames
                      Dm Dm G7
So that we could see it all all
It would look like
Will happen
C Am
Happening happened
Will happen
C D7
Happening happened
   G7
And will happen
C D7
Again and again
                G7
     F
Cause you and I will always be back then
   F
               G7
Cause you and I will always be back then
   F
             G7
                            C Am
Cause you and I will always be back then
That's why
    F G7
                 C Am
```

You and I will always be best friends

Acordes
