Red Hot Chili Peppers - Falling Into Grace

Tom: E
Intro: , talk-box

 verse, with talk-box

 fill, start second verse with this

 chorus, clean
                  1.,2.,3. endings   4. ending

 guitar solo, with dist. & chorus

 there's an acoustic guitar playing some chords behind the solo...
 and those chords are B7 an C7. the strumming rhythm is quite easy, kind of
 indianish :)
 and on the last bar the acoustic guitar plays D, Db, C notes from 5th fret.

 interlude, with talk-box
harm.-1½
```
|----------------|----------------|----------------|----------

```

 that's it. not difficult at all.
 all you need is talk-box effect, which is kind of shitty.
 well, otherwise it's a cool song to play.
 and that cool chord in the chorus is called Em7.
 thanks.
