(very quickly now, the guitar and bass plays:

E|-----6- plays a series of chords that go: Bb G G F  
C Bb

Cool solo part: A F A F G F A  
all I just did here was to write down the rhythm chords, I  
have and will not  
do the solo (as little as it may seem). If you listen to the  
album, you can  
figure out how these chords come in. The G part is when the  
guitar  
slides from G to Bb. Listen and you shall hear, my child.  
Anyway, the  
rest goes something like this:

D C  
If you see me getting mighty

D C  
If you see me getting high

Am Em  
Knock me down

Em G  
I'm not bigger than life

D C
