Bbm

F **C**
Scarecrows a liar

Spends the year alone

No one checked it out

To see if it was real

Sold you the moon

And now it's time to fall

All in all it's like the

Bird who's trapped alone inside the cage

Love

What more do you want?

How much more can you take?

I love my mistakes

I've been here before

All in all it's just
A call of something wise beyond your room

There's a changing of a major chord

Your minor threat will do love

My gun misfired

Shot myself instead I guess

I always knew I'd be the one to lose

Last scream don't slane

Time to make a move

What more do you want?

How much more can you take?

I love my mistakes

I've been here before

All in all it's like the

Bird who's trapped alone inside the cage

Love
A bird who's going to live at half your age girl
A bird who's never really here to say

What more do you want?

How much more can you take?

I love my mistakes
I've been here before

Least of all she's like
A bird who's now been

Freed from someone's cage
