Relient K - Over It

Tom: G

```
     G            Bm
I'll admit to who I am
    Em          D
The day I come to understand
   C
I haven't got a clue
      C                    G    D    Em   D
Been searching for a few years now

     G           Bm
Well if I don't repeat myself
       Em            D
Then I'll change into someone else
    C
Well I don't quite know who
     C
Been searching for a few years now

        C
I'm over it
      D
Yeah behind me now
        Em         G
I'm just over it
 C
Over it
       D
Yeah I'm finding out
        Em         G
I'm just over it
      C              D
No, I don't know what's over just yet
      Em            G             C
But I won't go slow and time can let the mind forget
               D      G
Don't tell me you don't know
D  Em
Already
```

```
                    D    G
(Don't tell me you let go
D  Em
Already)

G                      Bm
I'll protect your universe
       Em             D
Or make a mess to make it worse
     C
Time will only tell
    C
You and no one else so

                C                        D
You say you made up your mind and you've finally decided
                  Em
But those that helped you choose
    C          D         Em            C
Haven't the slightest clue as to the magnitude of what you're
about to lose

              G              Bm
I'm guarded and therefore I can endure
        Em
A little bit more
            D
Just a little bit more
    C
Than some people would
              C
If I'm not misunderstood
            G                     Bm
It's still an attempt to be egoless while self-assured
     Em                D
If I'm still unsure that I'm pretty sure
        C
That I am pretty good
    C
God, you know I'm good and
```
