

# Renan Talayeh - Haru

Tom: D

I wish i could change my reality now,  
 Cause all i can think or dream is about  
 Your eyes, your hair, your skin, I don't care... anymore  
 I know your answer for my question will be no  
 But i can't just stop this, I'm out of my control  
 If you could change your mind I would be, so grateful  
 Cause i promised to everybody at your side i would stay  
 My worst nightmare is you going away  
 You can't just leave me, please don't leave me  
 I don't care how do you think that I am  
 I can show you another side that you didn't expect  
 Before you are gone (answer me) what I've done  
 I need your answer as much as I need you  
 Your life is so incredible let me be a part of it to  
 Everything you say is so important to me, how does it couldn't  
 be  
 Your world, your point of view is colorful than mine  
 So help me to be happy, be a part of my life  
 I hope everything i say is helpful, cause I love you  
 ( D A D A )  
 I wish I could stop breathing for a few months  
 Cause every time I look at you I fall in love (one more time)  
 For your smell, for your mouth, for your sweet way of living  
 your life  
 I love the way you spend your time, talking with me cause I'm

always smiling  
 when I'm near you  
 I need your answer as much as I need you  
 Your life is so incredible let me be a part of it to  
 Everything you say is so important to me, how does it couldn't  
 be  
 Your world, your point of view is colorful than mine  
 So help me to be happy, be a part of my life  
 I hope everything I say is helpful, cause i love you  
 But i realized that I was wrong, I am not in the place that I  
 belong  
 I mirror you why am I not strong, I can't understand what I  
 have done  
 I swear I will give you all you want, just take my hand and  
 let's going on  
 The sky, the sea, all the world's spread, only me and you  
 let's be happy  
 I need your answer as much as I need you  
 Your life is so incredible let me be a part of it to  
 Everything you say is so important to me, how does it couldn't  
 be  
 Your world, your point of view is colorful than mine  
 So help me to be happy, be a part of my life  
 I hope everything I say is helpful, cause I love you  
 I know your answer for my question will be no  
 But I can't just stop this, I'm out of my control  
 If you could change your mind I would be, so grateful  
 ?
