Reneé Rapp - I Can't Have You Around Me Anymore
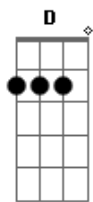

```
                 tom:
                     D
Intro:  D  G  Bm  A
        D  G  Bm  A

D                        G
I get funny when you're around me
              Bm                         A
We always do dumb shit and piss everybody off
           D                              G
Tell me where you'll be, and I'll leave my own party
            Bm                        A
It's probably a problem if it's this hard to stop

            D
Now it's causing lots of issues with my baby at home
             G
'Cause in every single picture, we're a little too close
   Bm                                  A
And I love you, but I wanna, and it's making me feel unsure
     G           A            D  G  Bm  A
So I can't have you around me anymore

D                        G
Somehow, we always end up naked
            Bm                         A
Nothing ever happens, but it still feels real good
```
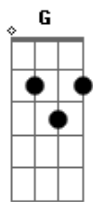

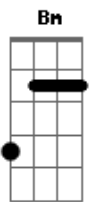

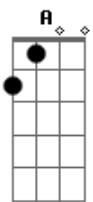

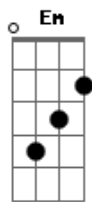

```
                     D                       G
And I wish she didn't, but I see why she hates it
                    Bm                      A
She wants to be the only one who's allowed to look

                    D
It's the root of every issue, it's the reason we fight
                      G
And I don't wanna have to choose, but I'm taking a side
              Bm                                       A
'Cause if it isn't me, it's her who's gonna close that door
   G           A
So I can't have you around me anymore

                  Bm                          A
(Ah) There's places we went that I'll keep to myself
   G                        D
And you got to know me a little too well (ah)
             Bm                A       G         D
But she'll never be someone I wish that I didn't know (mhm,
ah)
               Bm                    A
And she'll never be you, but she keeps me on course
 G                                      D
 And I'm not supposed to wonder if I should be yours
   Em             A            D  G  Bm  A
So I can't have you around me anymore
```
