

# Reneé Rapp - Moon

tom:  
Capostrate na 5ª casa  
Intro: G Bm C Cm

[Primeira Parte]

I don't miss you  
'Til the moment when I flick off the lights and I'm in this room  
Going back in space and time when we're still kissin'  
I know it hurts, I know you're somewhere out there still existing  
This shit's persistent

[Pré-Refrão]

'Cause you split my world in two  
Now I'm half the one you knew  
And I know that we got different views

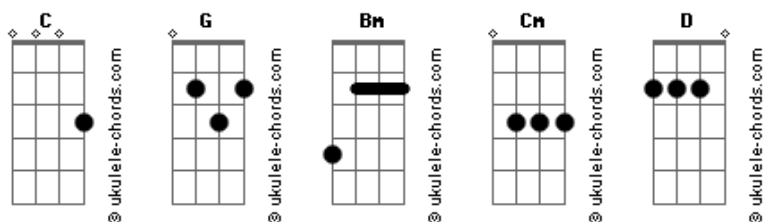

[Refrão]

But we're lookin' at the same moon (Ooh)  
Wonder if you miss me too when we're lookin' at the same moon (Ooh)  
How can I be dead to you when we're lookin' at the same moon

[Segunda Parte]

Are you lonely?  
Are you movin' on quick? I hope you're healin' slowly  
And that your nights, they hurt like mine, 'cause I'm not sleepin'

## Acordes

I'm just talkin' with your ghost and dancin' with your demons  
And they're not leavin'  
[Pré-Refrão]

'Cause you split my world in two  
Now I'm half the one you knew  
And I know that we got different views

[Ponte]

In the stars, I can see your eyes  
All the stars make me feel alive  
Only place to be when I  
In the stars, I can see your eyes  
All the stars make me feel alive  
Only place to be when I  
[Refrão]
