

# Rex Orange County - The Shade

tom: F [Intro] Bb F Bb F

[Primeira Parte]

I was closing all the blinds  
Just so you could sleep the night through  
I was staying by your side  
Just so I knew you were okay

And I was opening the door  
Just to see if you would walk through  
I started painting all the walls  
Just to see if you like the shade

[Refrão]

I would love just to be stuck to your side  
Not with anybody else, anybody else  
It's enough just to keep us occupied  
Please don't go. No no

I would love just to be stuck to your side  
Not with anybody else, anybody else  
It's enough just to keep us occupied

Please don't go

[Segunda Parte]

You were holding out your hand  
Hoping I'll be there to hold to  
I went out to Amsterdam  
Just so I could give you some space

Then I kept opening my door  
Just to see if you would walk through  
I kept on painting all my walls  
Just to see if you like the shade

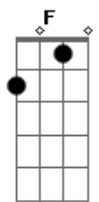

[Refrão]

I would love just to be stuck to your side  
Not with anybody else, anybody else  
It's enough just to keep us occupied  
Please don't go. No no

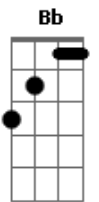

I would love just to be stuck to your side  
Not with anybody else, anybody else  
It's enough just to keep us occupied  
Please don't go. Oh oh
