And save me from myself and all this conflict
                                                               'Cause the very thing that I love is killing me

You trying to save me
                                                                              Am

Stop holding your breath
And you think I'm crazy, yeah, you think I'm crazy
                                                               You trying to save me
(Am G F Am ) variação Eminem:
                                                               Stop holding your breath
I wanted the fame, but not the cover of Newsweek
                                                               And you think I'm crazy, yeah, you think I'm crazy
Oh, well, guess beggars can't be choosey
                                                                                  Am G F
Wanted to receive attention for my music
                                                               Well, that's nothing
                                                                                   Am G F Am
Wanted to be left alone in public, excuse me
Been wanting my cake, and eat it too
                                                               Well, that's nothing
And wanting it both ways
Fame made me a balloon cause my ego inflated
                                                               (Am G F Am ) variação Eminem:
When I blew; see, it was confusing
Cause all I wanted to do is
                                                               Call me crazy, but I have this vision
Be the Bruce Lee of loose leaf
                                                               One day that I walk amongst you a regular civilian
Abused ink, used it as a tool
                                                               But until then drums get killed and I'm coming straight at
                                                               Emcees, blood get spilled and I
When I blew steam (wooh!)
                                                               Take it back to the days that I get on a Dre track
Hit the lottery, oh wee
With what I gave up to get was bittersweet
                                                               Give every kid who got played at
With this like winning a huge meet
                                                               Pumped up feeling and shit to say back
Ironic cause I think I'm getting so huge
                                                               To the kids who played 'em
I need a shrink
                                                               I ain't here to save the fucking children
                                                               But if one kid out of a hundred million
I'm beginning to lose sleep
One sheep, two sheep
                                                               Who are going through a struggle feels
Going cuckoo and cooky as Kool Keith
                                                               And then relates that's great
But I'm actually weirder than you think
                                                               It's payback, Russell Wilson falling way back
Cause I'm
                                                               In the draft, turn nothing into something
                                                               Still can make that
                                                               Straw into gold chump
Rihanna:
                                                               I will spin Rumpelstiltskin in a haystack
                                                               Maybe I need a straight jacket, face facts I am nuts for real, but I'm okay with that
I'm friends with a monster that's under my bed
              Am G
Get a long with the voices inside of my head
                                                               It's nothing, I'm still friends with the
             Am
You trying to save me
                                                                                  G
Stop holding your breath
                                                               I'm friends with a monster that's under my bed
                                                                              Am G
                G
And you think I'm crazy, yeah, you think I'm crazy
                                                               Get a long with the voices inside of my head
                   Am G F
Well, that's nothing
                                                               You trying to save me
                    Am G F Am
                                                                           F
Well, that's nothing
                                                               Stop holding your breath
(Am G F Am ) variação Eminem:
                                                               And you think I'm crazy, yeah, you think I'm crazy
No, I ain't much of a poet
But I know somebody once told me
                                                               I'm friends with a monster that's under my bed
To seize the moment and don't squander it
'Cause you never know when it all could be over tomorrow
                                                               Get a long with the voices inside of my head
So I keep conjuring
Sometimes I wonder where these thoughts spawn from
                                                               You trying to save me
(Yeah, ponder it, do you want this?
No wonder you losing your mind
                                                               Stop holding your breath
The way it wanders)
                                                                                G
                                                               And you think I'm crazy, yeah, you think I'm crazy
I think you've been wandering off down yonder
And stumbled onto Jeff VanVonderen
'Cause I need an interventionist
To intervene between me and this monster
                                                               Well, that's nothing
