                                                                And then you say love, this is what it's all about
                          Δhm7
I woke up with a fear this morning
                                                                So keep on kissing my mouth, and put that record on again
             Gb4
                     Abm7
    But I can taste you on the tip of my tongue
             Abm7
Alarm without no warning (hãn)
                                                                I don't want to hear sad songs anymore

                                                                  I only wanna hear love songs
You're by ma side and we've got smoke in our lungs
                                                                                                                     Abm7
                                                                  I found my heart up in this place tonight
Last night we were way up, kissing in the back of the cab
                                                                Don't wanna sing mad songs anymore ?
                                                                                      B?
                                                                Only wanna sing your song
And then you say love baby let's go back to my flat
                                                                                                                     Abm7
                                                                 Cause your song's got me feeling like I'm
                                                                         Abm7

And when we wake up, never had a feeling like that
                                                                                                      Gb4
