

# Rô - As You Walk the Long Road

tom:

Don't forget  
Your coat hanging by the door  
Your funny hat and you calming voice  
You'll need it again

Don't forget  
My feelings wherever you go  
'Cause deep inside I'll always know  
When you're wanting me, so

Don't think too much  
That maybe you don't deserve it  
You do deserve it

'Cause you've got it all  
As you leave this town  
As you leave this town

I got  
Hopes you are living your best life on your pace  
Don't change a thing, just keep on bringing light to this world  
As you walk the long road  
As you walk the long road

Leave your  
Notes aside just for a moment while you listen  
To this song, it's yours, no matter all the distance  
As you walk the long road  
As you walk the long road

As you walk

You're starting to realize  
How good you are and how hard you've tried  
To be where you are

There's nothing wrong  
In being the warm heart you want to be  
An open soul, young, wild and free

By the way, it's what I see

Don't think too much  
That maybe you don't deserve it  
You do deserve it

'Cause you've got it all  
As you leave this town  
As you leave this town

I got  
Hopes you are living your best life on your pace  
Don't change a thing, just keep on bringing light to this world  
As you walk the long road  
As you walk the long road

Leave your  
Notes aside just for a moment while you listen  
To this song, it's yours, no matter all the distance

As you walk the long road  
As you walk the long road  
As you walk the long road  
As you walk the long road

As you walk the long road  
As you walk the long road
