Rod Stewart - Baby Jane

Tom: C

```
       C                                          G
1. Baby Jane,  don't leave me hanging on the line,
        Am                       F  Am      F  G
   I knew you when you had no one to talk to.
       C                         G
   Now you're moving in high society,
       Am               F  Am     F  G
   don't forget I know secrets about you.
   F                          G
   I used to think you were on my side,
          F                G
   but now I'm no longer sure.
   F                        Am              G
   I wish I knew what I know now - before.
      Am           G            F            Am
   G
      When I give my heart again, I know,  it's gonna last
   forever.
      Am           G            F            Am
   G
      No one tell me where or when, I know,  it's gonna last
   forever.
       C                         G
2. Baby Jane, don't it make you feel sad,
       Am                       F  Am      F  G
   just when I thought that we were winning.
       C                   G
   You and I were so close in every way,
       Am                              F  Am       F  G
```
```
       don't time fly when you're loving and laughing.
   F                         G
   I've said goodbye so many times,
            F                     G
   the situation ain't all that new.
   F                Am                          G
      Optimism's my best defense, I'll get through without you.
   Am           G            F            Am       G
When I give my heart again, I know,  it's gonna last forever.
   Am           G            F            Am       G
No one tell me where or when, I know,  it's gonna last
forever.
Am           G            F            Am       G
I won't be that dumb again, I know, it's gotta last forever.
   Am           G            F            Am       G
When I fall in love again, I know, it's gonna last forever.
       C                   G
3. Baby Jane,  I've said all I want to say,
        Am                    F  Am      F  G
   go your own way, don't think twice about me.
                           C              G
    ´Cause I've got ideas and plans of my own,
        Am                    F  Am      F  G
   so long darlin', I'll miss you,  believe me.
   F                         G
   The lesson learned was so hard to swallow,
            F             G
   but I know that I'll survive,
   F                    Am                       G
   I'm gonna take a good look at myself and cry.
   REFRAIN
