

Rodrigo - Around The World

Tom: G

I just don't belong in here
 But I just can't go away
 As long as you stay with me
 I'll be feeling home anywhere in the world

Your laughter, it's for my better
 Your love, gives me shivers to my spine
 Girl, I need you to give a smile to me
 So that my head can go - - spinning 'round the world

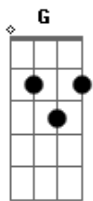

Everyday, your eyes spying mine,
 Everywhere, the look that will make me shy,

And the only thing I want
 Is to kiss you everynight "goodnight", in some place around the world

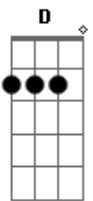

Sometimes, I miss your lips on mine,
 The way you look deep in my eyes,
 Tries to figure out my mind
 While my only thought is could i take you around the world

Everyday, your eyes spying mine,
 Everywhere, the look that will make me shy,
 And the only thing I want
 Is to kiss you everynight "goodnight", in some place around the world
