

Rose - 3Am

tom:
Eh-eh, eh-eh, eh-eh

[Primeira Parte]

I just saw a red flag
Gonna pretend I didn't see that
'Cause is it really, really that bad?
I need you really, really that bad
So, can we keep this story rolling?
Forget that shit my mother always told me
'Cause nothing's really perfect like that
I need you really, really that bad

[Pré-Refrão]

I need you really, really that bad

[Refrão]

The one I run to
Take my makeup off and say goodnight to
The one I pretty talk and ugly-cry to
The world can roll their eyes, but there's no use
I just want it to be you
When it's 3 a.m.?
And I'm losing myself in my mind again
The one who gives me love that is bulletproof
The world can roll their eyes, but there's no use
I just want it to be you

[Pós-Refrão]

Eh-eh, eh-eh, eh-eh
I just want it to be you
Eh-eh, eh-eh, eh-eh
I just want it to be you

[Segunda Parte]

Hold me, kiss me on my face
Talk shit about the world with me all day
And even when I'm putting you through hell
Say I'm not like anyone else
Slowly, words roll off my tongue
You're everything I need and it's so dumb
And even when you're putting me through hell
You're not like anyone else

[Refrão]

The one I run to
Take my makeup off and say goodnight to
The one I pretty talk and ugly-cry to
The world can roll their eyes, but there's no use
I just want it to be you
When it's 3 a.m.?
And I'm losing myself in my mind again
The one who gives me love that is bulletproof
The world can roll their eyes, but there's no use
I just want it to be you

[Pós-Refrão]

Eh-eh, eh-eh, eh-eh
I just want it to be you
Eh-eh, eh-eh, eh-eh
I just want it to be you

[Final]

Eh-eh, eh-eh, eh-eh
I just want it to be you
Eh-eh, eh-eh, eh-eh
I just want it to be you
