

Roselynd - Ghosts

tom:
Intro: E Abm Gb
Wait
Don't hide yourself away
Beneath the surface
Is where we will lay
To sink past the creatures
The lifeforms in play
In the warmth of this darkness
We will waste away
To breath slow
To feel you still
To move through water slow
When you were real
And I was the ghost
(E Abm Gb)

The winds
That pull us out to sea
They pull on everything
That pulls on me
Past the people
The places that used to be
Alone I'll wait right here
With you in me
To breath slow
To feel you still
To move through water slow
When you were real
And I was the ghost
When you were real
And I was the ghost
[Final] E Gb E Gb
