

## **Roxette - Never Is A Long Time**

```
Tom: Bb
                                                                    Sometimes you laugh, sometimes you cry.
   Verse 1:
                                                                    And yes I cried over you.
 (Gm )
    You build it up and tear it down,
                                                                    You left me blind in paradise,
    there's no reason to follow you.
                                                                    you left me hungry for the touch of you.
   You left the song without a sound,
                                                                    Snow white angels run and hide,
    you left the story I made for you.
                                                                    in the blackness of the night.
   Softly angels go and cry,
                                                                 Chorus:
                                                                                               Fb
                                                                                    Bb
                                                                    Never is a long time, goodbye. \begin{array}{ccc} \text{Cm} & \text{Gm} & \text{F} \end{array}
    in the stillness of the night.
                                                                                                    {never is a long time}
 Chorus:
                                                                    No answers for the asking.
                    Bb
                                                                             Bb Eb
    Never is a long time, goodbye.
                                                                    It's a long time, goodbye.
                                                                       Cm Bb
                                                                                                    {never is a long time}
   No answers for the asking.
                                                                    No mercy for the aching.
               Bb
                                                                                Bb
                                                                    It's a long time, Oh my.

Cm Bb F
See no light of love forsaken.
    It's a long time, goodbye.
      Cm Bb F
                                                                                                    {never is a long time}
    No mercy for the aching.
   It's a long time, Oh my.
             Bb Eb
                                                                                    Bb Eb
                                                                    Never is a long time, goodbye.
          Cm Bb
                                                                           Cm
                                                                                    Gm
    See no light for the forsaken.
                                                                    Let's spend the night,
                  Bb
    Never is a long time, goodbye.
                                                                    when this dream has come to an end.
          Cm Gm
    Let's spend the night,
                                                                    Never is a long time.
    when this dream has come to an end.
                                                                    Never is a long time.
 Verse 2:
                                                                 Main: D D D D C C Bb A#
