Roxette - You Can't Put Your Arms Around What's Already Gone

Tom: D

```
          A   G          D
I saw red, stayed at home
A         G         D
Placed a big pillow over the phone
          A   G          D
In this town where I'm from
            A               G            D
I've learned two is so much better than one

          Gbm      D
But you left me alone
     A              Gbm                 A         E
You can't put your arms around what's already gone
          Gbm           D
Watch you sink like a stone
     A              Gbm                 A         E
You can't put your arms around what's already gone

          A    G       D
Well, you hurt to the core
             A           G         D
You used to kiss like no one had done before
          A     G        D
And your taste turned me on
          A        G               D
Now you drive me real crazy just by being born
         Gbm                      D
Cos you left (left left left) me alone (left me alone)
          A              Gbm                   A      E
And you can't put your arms around what's already gone
          Gbm           D
Watch you sink like a stone
          A          Gbm                 A         E
You can't put your arms around what's already gone

B      Gbm   E    D      B  Gbm  E

Baba b-baba b-baba ba
B      Gbm   E    D      B  Gbm  E

          A    G          D
Took the tram 'round the bay
          A      G           D
Where everyone tells you to have a nice day
         A     G      D
And my pride almost broke
          A           G            D
When the tears don't fit you, you look like a joke
          A                        F
And you left (left left left) me alone (left me alone)
      C              A                    C       G
You can't put your arms around what's already gone
          A              F
Cryin' eyes gettin' worn
      C              A                    C       G
You can't put your arms around what's already gone
          A                        F
Hey, you left (left left left) me alone (left me alone)
      C              A                    C       G
You can't put your arms around what's already gone
          A              F
Watch you sink like a stone
      C              A                    C       G
You can't put your arms around what's already gone
