

Rozei - Retrograde

tom: [Intro] Gb B

Gb
Well up North's been getting lonely

B
Since you left

Gb
And lately, there's a ghost inside

B
My bed

Gb
Oh, darling, all my serotonin left

B
With someone I don't know

Gb
And the weight of you

Db
Still lingers on my chest

B Gb Db
Oh, I know December's awfully cold

Db
So I guess I'll take the long way home

Ebm
While I'm running on empty

Db B Gb
But we're still a thousand miles apart

Ebm
I hope that you're happy

Db
'Cause I'm stuck here

B Gb
Wishing on shooting stars

Abm B
So darling, tell me, how's the weather?

Gb Db
'Cause I ain't seen the sun in days

Ebm Db Gb
Oh, my love, you feel a world away

While I'm trapped in retrograde

Gb B
I've tried to make it out of

Gb
This god forsaken town

Db Bbm B
Seems like every conversation's

Gb B
Got your name inside it now

B
I don't mind the word of mouth

Gb
But I heard that you're heading south

Db
Now all the constellations

Are burning out

B Gb Db
Oh, I know December's awfully cold

B Db
So I guess I'll take the long way home

Ebm
While I'm running on empty

Db B Gb
But we're still a thousand miles apart

Ebm
I hope that you're happy

Db
'Cause I'm stuck here

B Gb
Wishing on shooting stars

Abm B
So darling, tell me, how's the weather?

Gb Db
'Cause I ain't seen the sun in days

Ebm B Gb Db
Ooooooooooh, my love, I'm

Gb
Trapped in retrograde

(Ebm Db B Gb)
(Ebm Db B Gb)

Abm B Gb
And ever since you left here, now

Db
This place ain't been the same

Ebm B Gb Db
Ooooooooooh, my love, I'm

Gb
Trapped in retrograde

Acordes
