tom:

C  
Hey, hey, hey, hey

F  
Oh oh oh oh

Am G C  
Hey, hey, hey, hey

F  
Oh oh oh oh

Am G  
You can get real close, talking, you're talking now

C F  
Underneath our clothes, pretend that we know it all

Am G  
Shut off the lights, just to hide in the dark, dark, dark

C F  
Think that I know you the farther you are

Am G  
Like, A-B-C-D, that could work so perfectly

C F  
If perfect was the kinda thing that worked for me

Am G  
But I wanna feel nervous, just a little bit off the edge

C F  
Even if I know that I will end up in a mess like

Am G  
Aye, aye, aye, aye, aye, it won't be perfect

C F  
But I know oh, oh, oh, oh, it could be worth it

Am G  
And for all of the nights I left tears running down my face,  
messing up my mascara

Am G  
See right through the fiction, and all of this fakery

C F  
Just give me some friction, let me see what nobody sees

Am G  
You don't think that I can handle the truth?

C F  
Baby I'm over just playing it cool, oh

Am G  
Like, A-B-C-D, that could work so perfectly

C F  
If perfect was the kinda thing that worked for me

Am G  
But I wanna feel nervous, just a little bit off the edge

C F  
Even if I know that I will end up in a mess like

Am G  
Aye, aye, aye, aye, aye, it won't be perfect

C F  
But I know oh, oh, oh, oh, it could be worth it

Am G  
And for all of the nights I left tears running down my face,  
messing up my mascara

Am G  
That's what we need (that's what we need)

C F  
That's what we need (that's what we need)

Am G  
Baby, do you think that you could give it to me?

C F  
That's what we need

Am G  
That's what we need

C F  
Baby, do you think that you could give it to me?

Am G  
Aye, aye, aye, aye, aye, it won't be perfect

C F  
But I know oh, oh, oh, oh, it could be worth it

Am G  
And for all of the nights I left tears running down my face,  
messing up my mascara

Am G  
That's what we need (that's what we need)

C F  
That's what we need (that's what we need)

Am G  
Baby, do you think that you could give it to me

C F  
That's what we need

Am G  
That's what we need
