

Sabrina Carpenter - Sharpest Tool

tom:
E (forma dos acordes no tom de D)
Capostrate na 2ª casa

I know
You're not
The sharpest tool in the shed
We had sex, I met your best friends
Then a bird flies by and you forget

I don't
Hear a word
Till your guilt creeps in
On a Tuesday, send a soft: Hey
As if you really don't recall the time

We were goin' right, then you took a left
Left me with a lot of shit to second-guess
Guess I'll waste another year on wonderin' if

If that was casual, then I'm an idiot
I'm lookin' for an answer in between the lines
Lyn' to yourself if you think we're fine
You're confused and I'm upset, but

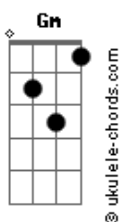

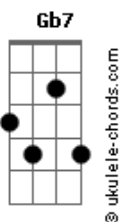

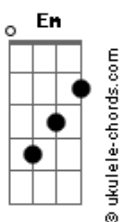

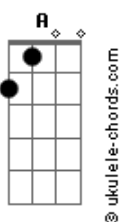

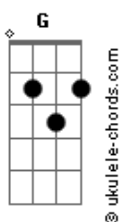

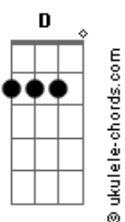

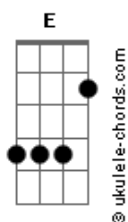

We never talk about it
We never talk about it
We never talk about it

All the silence just makes it worse, really
'Cause it leaves you so top of mind for me
All the silence is just your strategy
'Cause it leaves you so top of mind for me

We never talk about how you
Found God at your ex's house
Always made sure that the phone was face down

Seems like overnight I'm just the bitch you hate now

Acordes

We never talk it through
How you guilt-tripped me to open up to you
Then you logged out, leave me dumbfounded
Mmm, mmm, mmm, mmm
We were goin' right, then you took a left
Left me with a lot of shit to second-guess
Guess I'll waste another year, I'm wonderin' if

If that was casual, then I'm an idiot
I'm lookin' for an answer in between the lines
Lyn' to yourself if you think we'r? fine
You're confused and I'm ups?t
But we never talk about it (Talk about it)
We never talk about it (Talk about it)
We never talk about it (Talk, talk, talk)
(Talk about it, talk about it)
(Talk about it, talk about it)

We never talk about how you
Found God at your ex's house
Always made sure that the phone was face-down

Seems like overnight, I'm just a bitch you hate now
We never talk it through
How you guilt-tripped me to open up to you
Then you logged out, leave me dumbfounded, oh-oh

We never talk about it
(We never talk about it)
We never talk about it
Talk, talk, talk about it (We never talk about it)
We never talk about it
Talk, talk, talk about it (We never talk about it)
We don't talk about it
We don't talk about it
