# Sabrina Carpenter - Tomorrow Starts Today

Tom: C

```
    C                         G7
I'm standing on the edge
                    Am              F
And everything I know has blown away
C              G7
Life is upside down
                    Am              F
But anywhere it goes, I'll work it out
C              G7
Oh-oh-oh-oh-oh, here we go
F
(One, two, three)
                         C
I'm ready for tomorrow
```

```
                            G7
Tomorrow starts today
                                 Am
There ain't no map to follow
                                 F
But I'm with you all the way
                            C
I'm ready for tomorrow
                            G7
Tomorrow starts today
                                 Am
There ain't no map to follow
                                 F
But I'm with you all the way
                      C
All the way
```
