

Sage Act - Time

```
Tom: Bb
Intro: Dm F Gm Bb
Thinking about the future
Working above others
Talking about lovers
Facing another lonely
Time
At important times we might
Get the trouble out of sight
            Bb
And I wonder... and I wonder why
Boy, get your ass up there above
                 Gm
Till you finally improve
And I wonder... and I wonder why
If all the shit gets back to our inside
Hiding on the deepest part of us
Moving just a little further
We won?t fight it, we are rising
Thinking about the future
Working above others
Talking about lovers
Facing another lonely time
Thinking about the future
Working above others
Talking about lovers
Facing another lonely time
Heavy load
In your roof rack
Far from your home
```

Acordes

```
I don't know where
Silent roads
I suppose it
Destination
Bh
Pass it over
Look how you learn despite the time you waste
Look how you move into the tiniest cave
Look how you struggle on a war you made
                    Bb
And now you complain
There is not enough
