

## Saint Asonia - Voice In Me

```
Tom: C
  Intro: F
Verse 1:
Here I go, I need to confess this
I've been scared for so long and you have been to witness
I know you're looking for some answers
But I still lie awake at night wondering who I really am
Over and over again
It speaks to me
There's a voice inside me
               Em
The only child that was left alone
                       Am
I know that you're hurt, your cries are so loud
                  G
One day I'll be the one to make you proud
Am C
Or maybe for your sake, I'll just walk away
'Cause I can't watch you drown in the flood I've made
Here I sit in the dark defenseless
I'm saying sorry in my head for the things I've done to the
ones I love
I surrendered myself a long ago
But there's something that's inside of me
It's too strong and takes a hold
Pre-Chorus:
Over and over again
```

```
It speaks to me
There's a voice inside me
                Em
The only child that was left alone
Chorus:
Am C Am C I know that you're hurt, your cries are so loud
One day I'll be the one to make you proud
                  C Am
Or maybe for your sake, I'll just walk away
'Cause I can't watch you drown in the flood I've made
And now there's pages turning
And there's houses burning
Gotta get out of head today
It's always me you're blaming
I'll never be the same
And now the stains of you will never wash
Never wash me away
Chorus:
                        \mathsf{Am}
I know that you're hurt, your cries are so loud
One day I'll be the one to make you proud
                       Am
Or maybe for your sake, I'll just walk away
'Cause I can't watch you drown in the flood I've made
Outro:
The voice in me
There's a voice in me
The voice in me
```
