[Primeira Parte]
All the words I had to say
They don't mean nothing to you
What the hell, we're on the way
There is no nothing better
All we had to do was touch
That was the best chance
I could have ever and all of us
[Segunda Parte]
All day long we looked to fall
Looking into the sun
And found a way to get along
To be waiting for you
In the day, oh, in the day
There is nights between us
Looking for another way
( A D7M D Bm7 A )
[Terceira Parte]
All the words I said were wrong
They don't mean nothing to you
All we had to do was touch
And there's no nothing better
In the day, oh, in the day
I've been reaching for you
Nights between us all the way
( A )
[Ponte]
It's all the way
```
