         Bm Bm7
If you were the ocean and I was the sun
If the day made me heavy and gravity won
If I was the red and you were the blue
G          E7        Bm  Bm7
I could just fade into you

Bm Bm7
If you were a window and I was the rain
I'd pour myself out and wash off the pain
I'd fall like a tear so your light could shine through
G          E7        Bm
Then I'd just fade into you
Bm          Bm7
In your heart, in your head
          G           E7          Bm
In your arms, in your bed under your skin
                  Bm7
Til there's no way to know where
     G        E7         Bm
You end and where I begin

Bm Bm7
If I was a shadow and you were a street
The cobblestone midnight is where we first meet
Til the lights flickered out, we dance with the moon
G        E7             Bm
Then I'd just fade into you

Bm                Bm7
```

```
In your heart, in your head
          G                 E7         Bm
In your arms, in your bed under your skin
                        Bm7
Til there's no way to know where
     G        E7        Bm
You end and where I begin

Bm           Bm7              G
I wanna melt in I wanna soak through
                      E7
I only wanna move when you move
Bm           Bm7        G
I wanna breathe out when you
                          E7
Breathe in then I wanna fade into you

Bm Bm7
If I was just ashes and you were the ground
And under your willow they laid me down
There'll be no trace that one was once two
G        E7           Bm
After I fade into you

Bm Bm7 Bm Bm7
Oooooo oooooo oooooo
G             E7         Bm
Then I just fade into you
Bm Bm7 Bm Bm7
Oooooo oooooo oooooo
G             E7         Bm
Then I just fade into you
