San Cisco - When I Dream

```
                            tom:
                    A
              D
I would never lie to you
    E                                       D
But it's hard when the truth is such a shame
D
I never wanted to say I'm sorry
    E                     D
But sorry is all I can say

E                   Gbm
Is it really all that bad when I dream
        D
Yeah, I dream about you
E                        Gbm
You know that a lot of the things you say
            D
About me, were never true

D               Gbm    E
I've lost a few good friends lately
      A        Abm         Gbm      E
And I think it's my fault, not theirs
D             Gbm  E
I was never a fake or phoney
      A        Abm       Gbm  E
I just needed a change, I guess
D             Gbm  E
Why does it feel so good to be
A    Abm         Gbm  E   D
Self-destructing aga___in?

( D   E   D   E )

D
It's way too cold in the winter, baby
    E                        D
For you to be alone in your bed
D
I don't need to know when it happens
    E                    D
But just know that I'm still there

E                   Gbm
Is it really all that bad when I dream
```

```
                    D
Yeah, I dream about you
E                        Gbm
You know that a lot of the things you say
            D
About me, were never true

I was never a fake or phoney
      A        Abm       Gbm  E
I just needed a change, I guess
D             Gbm  E
Why does it feel so good to be
A    Abm         Gbm  E   D
Self-destructing aga___in?

E                   Gbm
I guess you're doing alright
                        D
I'm here for you like I used to do
E                        Gbm
I never really thought I'd get through it
                    D
I'm still here, without you

D               Gbm    E
I've lost a few good friends lately
      A        Abm         Gbm      E
And I think it's my fault, not theirs
D             Gbm  E

Why does it feel so good to be
A    Abm         Gbm  E   D
Self-destructing aga___in?

        A    Abm       Gbm  E   D
Just self-destructing aga___in
        A    Abm       Gbm  E   D
Just self-destructing aga___in
