You can go, you can leave this town **E**

Forget about the people and the places **Gbm**

And the faces that have let you down **A**

You can hide, you can change your name **E**

But the fear will always find you **Gbm**

If it's coming from inside you **D**

So you've gotta change **D**

Ponte:

So if it's the same to you **A**

You could stay with me **E**

I could take you from your nightmares **E**

And put you inside your dreams **Gbm**

And you would see **Gbm**

**D**  
I'm never gonna leave you

Refrão:

**A**  
**E**  
Even when you feel so low like you might let go **Gbm**

I will be the first hand reaching out **D**

I will be the last one giving up on you **A**

**E**  
Even when you feel your breath fading from your lungs **Gbm**

I will be the first hand reaching out **D**

I will be the first, last, first, last and only one **A**

**A** **E**  
If you leave, tell me where you'd go? **Gbm**

Would you lock yourself inside a place **D**

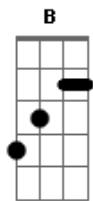

So no one had the chance to face you on your own **A**

Cuz when we fall down, we can stay down **E**

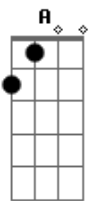

But the freedom that we wanna find **Gbm**

Is only found when we're off the ground **D**
