

Seal - Just Like You Said

```
Gbm E A G D
Hmmmmmm...
                                                            Dmai9 E
                                                            Yes I do...oh
I,
                                                            C#sus2
I am so unsure
Every minute that waits
                            Dmaj9 Dadd6/9
   G
Every second that I'm away from you
  Gbm
And love
                                                            C#sus2
Is a way that
Has no rules
                                                                E
Know that I'm loving you
                                                                  Bm
Even if it's
                                                            It's okay
                 Dmaj9
          D
A fool that waits in vain
Waits in vain
                                                            F A
                                                            Ohhhhhh...
C#sus2
Yesterday it hit me
                                                             E
I felt we were slipping away
E E Bm
E E Say if you can it's okay

LE E E
Just like you said way then
C#sus2
Sometimes I fall and I feel like
                                                            C#sus2
I don't know the way
     E
              Bm
Say if you can it's okay
                                                                Е
         Α
Just like you said then
                                                                  Bm
                                                            It's okay
Just like you said
Gbm
Now,
      F
Now my days become long
                           D
 A G
Okay, I know I'll never feel the same again
```
