Intro: Bm  G2   D   Bm   G2   D

[Primeira Parte]

                          Bm    G2
I'm getting back to the basics
D                         Bm    G2
 Don't need a clever way to say it
D                         Bm
 No more flashy ways of praying
   G2                     D
A simple yes and honest amen
         Bm G2  D
Yes and amen

[Refrão]

        G                 D
I surrender all the ways
        A                 Bm
I complicate this common grace
        G                 D
Reignite that holy flame
              A
The purest praise is a basic faith

( Bm   G2   D )

[Segunda Parte]

                          Bm    G2
When did I stop seeing angels
```
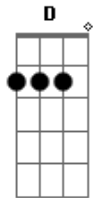

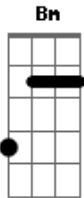

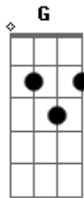

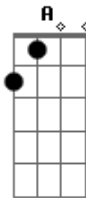

```
D                         Bm     G
 And started working my own angles?
D                         Bm
 It isn't faith if you explain it
   G2                    D
It isn't God if you can tame it
              Bm     G2 D
You can never tame it

( Bm   G2   D  Bm   G2   D )
( Bm   G2   D  Bm   G2   D )

[Terceira Parte]

                          Bm     G2
I realized that I stopped praying
D                         Bm     G2
 I've forsaken sweet communion
D                         Bm
 In my heart I know You're waiting
         G2          D
With an open invitation

                       Bm G2 D
Here's my yes and amen
                       Bm G2 D
Here's my yes and amen

Here's my yes and amen
